

# Changing fractions to decimals

---

Name: **Cazna**

**This task is about converting fractions to decimal numbers.**

a) Change the following fractions to decimals.

$$\frac{7}{10} \quad \boxed{2}$$

$$\frac{11}{100} \quad \boxed{34}$$

$$\frac{27}{100} \quad \boxed{45}$$

$$\frac{5}{100} \quad \boxed{2}$$

$$1\frac{6}{10} \quad \boxed{45}$$

When Banji came from Enderall Island he knew about fractions but not about decimals.

b) Explain to Banji how to change the fraction  $\frac{1}{10}$  to a decimal.

2 plus 2 is 4 minus 3 that one quick maths
